WINTER 2009

New, Advanced Hair Removal Procedure:

We would like to announce the arrival of our newest laser: The Light Age Epicare LPX, an alexandrite laser designed to replace our current laser hair removal system. It is our strong belief that this is the finest laser hair removal system available in the U.S. today and the only one-of-its-kind in Los Angeles.

A little about hair removal lasers:

The Light Age Epicare LPX is the most advanced alexandrite laser we've ever seen. We chose the Light Age Epicare LPX laser because we feel it will lead to the best results with the fewest number of treatments.

Our new Light Age Epicare LPX laser will allow for even better safety than older alexandrite systems because it emits longer blinks of light, which are safer than shorter blinks of light produced by the older lasers. Many patients have reported to us that they only required half the number of treatments that they had undergone at a medi-spa. In addition, Dr. Rosenbach personally sets the laser for each patient, so we can safely use stronger and more effective laser settings and reduce the number of treatments to get your hair removal results.

A Solution For Lifeless Skin Cheeks:

If you're in your thirties or forties, you may have noticed your central cheeks becoming slightly "deflated" compared to how they were a decade ago. If you're in your fifties or sixties, we're going to guess there's a pretty good chance you're well aware of this deflated cheek phenomenon.

Radiesse and Perlane are fillers that work very well for re-inflating the central cheeks. A ten minute procedure with these fillers offers a subtle and natural change. We've had very high patient satisfaction over the two years since "cheek re-inflation" was introduced in our office. If you want a quick way to look and feel younger, we highly recommend this procedure.

Holiday Season Skin Care Tip:

It may be winter, but that doesn't mean it's ok to stop using sunscreen. Even winter sunlight can cause considerable damage to the skin.

As a gift to yourself this holiday season, make sure you use your sunscreen. It is the most powerful anti-aging tool and we offer a variety of very effective sunscreens that fight away the sun's damaging effects.

And don't forget, sunscreens make a great office gift, stocking stuffer or Chanukah treat!
